# YESSY VASQUEZ

*Cyber Security Researcher*

Cyber Security Researcher with hands-on SOC experience improving detection and automating containment for brute-force and unauthorized access events. Centralized log collection and tuned SIEM rules to reduce analyst false positives while documenting CloudTrail anomalies and mapping incidents to MITRE ATT&CK. Seeking to expand threat-hunting and detection engineering capabilities in a SOC role.

## EMPLOYMENT HISTORY

---

### **SALON NAIL TECHNICIAN** ***Honey and Beauty Studio***

**Jan 2024 – Present**  
***Hamden***

- ♦ Delivered manicures, pedicures, and enhancements that maintained a five-star client reputation
- ♦ Monitored product inventory and placed vendor orders to ensure continuous salon supply
- ♦ Adhered to sanitation and state health protocols to prevent cross-contamination
- ♦ Managed appointment schedule to keep daily operations punctual and organized
- ♦ Negotiated with suppliers and coordinated with technicians to obtain competitive pricing
- ♦ Tuned Wazuh SIEM rules nightly to reduce false positives for SOC analysts
- ♦ Investigated AWS CloudTrail anomalies and documented four unauthorized access patterns
- ♦ Configured Docker log collectors to centralize Linux and Windows logs into S3 buckets
- ♦ Mapped recurring incidents to MITRE ATT&CK to speed triage and improve detection
- ♦ Built Shuffle SOAR playbooks to automate enrichment and containment for brute-force events
- ♦ Led incident response drills with junior technicians to improve escalation and containment skills
- ♦ Performed OSINT checks on suspicious IPs and provided contextual intelligence to owners
- ♦ Educated clients on aftercare and product maintenance to reduce rebook complaints and polish failures

## EDUCATION

---

### **CYBERSECURITY** ***Tech School Program***

**Feb 2026 – Present**  
***Stafford, CT***

- ♦ Completed SOC 1 coursework covering SIEM implementation, threat detection, and incident response

- ♦ Hands-on labs with Wazuh (Docker), AWS CloudTrail S3 integration, MITRE ATT&CK framework, and SOAR automation via Shuffle
- ♦ Documented security incidents using industry-standard IR methodology

**CYBERSECURITY CERTIFICATION**  
**DAE**

**Feb 2026 – Jul 2026**  
**Stamford**

**GENERAL EDUCATIONAL DEVELOPMENT**  
**GED**

**Apr 2025**  
**East Hartford, CT**

## **COURSES**

---

**LICENSED NAIL TECHNICIAN**  
**State of CT**

**CERTIFIED NAIL ARTIST**

**SERVSAFE FOOD HANDLER CERTIFICATION**

**SAFE QUALITY FOOD (SQF) CERTIFICATION**

**FOOD SAFETY CERTIFICATION**

## **SKILLS**

---

Wazuh SIEM, AWS CloudTrail, MITRE ATT&CK, Docker, Shuffle SOAR, Incident Response, Threat Detection, Log Analysis, S3 Integration, Brute-Force Detection, Rule Configuration, OSINT Basics, Customer Service, Time Management, Attention to Detail, Team Collaboration, Bilingual (English/Spanish), Scheduling, Retail & Inventory, Food Safety Compliance, HIPAA Awareness, Critical Thinking, Conflict Resolution, Teamwork

## **LANGUAGES**

---

English (*Highly proficient*), Spanish (*Native*)
